PRODUCT SUGGESTIONS

What to use when installing

VERSATEX BUILDING PRODUCTS
STAINLESS STEEL HEADCOTE SCREW
Headcote stainless steel screws with white coated heads by Starborn are designed to blend with PVC trim.
starbornindustries.com | 800-596-7747

PVC TRIM BOARD NAIL
Simpson Strong-Tie PVC Trim Board Nails are less noticeable on the trim surface and offer a clean, finished look. Also available in a trim head stainless steel screw and specially designed for easy low-torque installations of PVC Trim to wood.
strongtie.com | 800-999-5099

STAINLESS STEEL PLAIN SHANK NAIL
These slender blunt pointed nails are made from high tensile stainless steel to minimize bending and reduce the splitting of the material.
mazenails.com | 815-223-8290

TAPCON SELF TAPPING CONCRETE SCREWS
Buildex Tapcon concrete anchors deliver the product strength and easy installation you need to get the job done right.
itwbrands.com | 847-944-2260
- Equivalent of 8D or greater head, 12 gauge or stronger, stainless fasteners are suggested

Also approved:
GRK FASTENERS #8 x 2 1/2" RT Composite Stainless Steel Trim Head Screw with White Head
FASTENING & FILLING NAIL HOLES

If you don’t paint:

Cortex Concealed Fastening System
The Cortex Hidden Fastening System is the fastest way to hide the fastener heads when installing PVC trim. Now available in collated strips!

fastenmaster.com | 800-518-3569

• Also available for steel framing

Starborn Pro Plug System
A superior and easy to install plug system for PVC trim that eliminates the need for nail hole filler. Available with epoxy-coated carbon steel or stainless steel screws.

starbornindustries.com
800-596-7747

• Be sure to use only VERSATEX plugs for color match and weatherability

If you paint:

DAP Platinum Patch Advanced Exterior Filler
DAP Platinum Patch won’t shrink or crack, provides great durability and is sandable & paintable, waterproof & weatherproof. Formulated with Weathermax Technology for excellent UV protection to prevent color fading. Good for interior or exterior use and an exceptional color match to VERSATEX.

dap.com | 888-327-8477
This finish nailer is the premium tool to drive RAPTOR® finish nails for high output production and is the most versatile tool in the RAPTOR® product line.

- **RAPTOR OMER BI7P.763**
- **SOLAR SEAL 900**
  Provides exceptional weather resistance, adhesion, elongation and color stability. Solar Seal #900 is field-proven over thirty years.

  Advanced sealant designed for superior performance on exterior window, door, siding and trim applications.
  - [osipro.com](http://osipro.com) | 800-624-7767

---

TIP FOR MULTI-LAYER MOULDING AND MILLING

If you’re interested in gluing sheets of boards of cellular PVC without clamps or a press, consider RAPTOR Composite Finish Nails. RAPTOR nails are a polymer composite that can be run through moulders, lathes, CNC machines, sanding equipment, or table saws without the fear of hitting a metal nail or damaging your tooling. We recommend limiting its use to glue ups and other fabrication projects.
**SEALANTS**

**Geocel 2300 Construction Tripolymer Sealant**
A single component, high-performance elastomeric sealant for use in a wide variety of trim applications.

geocelusa.com | 800-348-7615

**PL S40**
PL S40 is a premium quality commercial grade sealant developed especially for forming permanent, water and weather resistant seals in most exterior gaps and joints.

loctiteproducts.com | 800-624-7767

- Only solvent-based sealants are suggested

**ADHESIVES**

**When bonding VERSATEX to VERSATEX**

**WELD-ON 705**
A high-strength formulation with 3-5 minute set-up time.

weldon.com | 310-898-3300

**When bonding VERSATEX to VERSATEX**

**CHRISTY’S RED HOT WHITE**
